

Ventex Floor Fan 800M

Mobile and relatively compact, the 800M Floor Fan is designed to provide high air movement from a 16a 10v supply.

This can be used in the summer to create a cooling effect for those working in the immediate area. It can also be used in winter months to circulate warm, dry air for an even heating or drying effect.

Portable, light and with a tilting fan housing, the 800M can be quickly and easily moved into the required position. A three-speed control switch allows you to choose the most effective airflow for your environment.

Features & Benefits

- ✓ Powerful stand alone ventilation fan
- ✓ Portable and light
- ✓ 12,900m³ /hr airflow
3-speed settings
- ✓ 110v 16a
- ✓ Install into enclosures to create negative pressures etc.

Key Applications

- ✓ Localised cooling Warm air distribution
- ✓ Moisture removal
- ✓ Suitable for Industrial cooling for warehouses, packing areas, factories etc.
Good for providing fresh air, cooling, heating and drying

Ventex Floor Fan 800M

Fan Unit	Ventex 800M Floor Fan
Maximum Airflow	12,900m ³ /h
Ducting Size	N/A
Plug	16a 3-pin
Voltage	110v
Motor Size	0.345kW
Running Current	4 amps
Length	700mm
Width	900mm
Height	980mm
Generator size	30Kva
Weight	28kg
Minimum Power Supply	3kva tool transformer
Noise*	70 – 74 DbA @ 3m

* The physical noise experienced will vary according to how the unit is used and the characteristics of the environment around it
